16. Texte de Félix Leclerc (directions est et ouest)

*Nuit de vent et de colère. Ce
matin, épaisseur de givre dans
la vitre. On ne voit pas dehors.
Je sors. Quatre roseaux dans
le marais endormis dans leurs
vêtements de bal : colliers,
bagues, petits jupons de glace.
Où ont-ils passé la nuit?*

◊ ◊ ◊

*La neige fond, l'étang dans son
petit lit qui boit le soleil, la scie
ronde qui cbante chez le voisin,
la corneille qui est revenue, une
hache, un tas de bois à bûcher,
la moutonne qui a eu ses
petits, la semence qu'on sort
des greniers, les premiers
pissenlits sur les buttes, l'odeur
de l'érable... S'il n'y a pas de
ces matins-là au paradis, ça
va jaser du côté des habitants.*
